PRIVACY

From December 21, 2001, the Federal Privacy Act of 1988 was amended to apply to all doctors in private practice. It is required that a fully informed voluntary consent is obtained before or as soon as practical after the collection of health information.

Providing you with the best care requires a full knowledge of your health information by all members of a medical team, which may be shared from time to time, including by electronic means. This may include referring and consulting doctors, allied health staff, pathology, radiology, anaesthetists, Medicare, private health funds and debt collections agencies.

Your health information may be used in a de-identified manner for surgical audits, clinical research, etc. Record keeping may also include medical imaging and photographs. *The privacy of individuals is strictly maintained when reporting results of audits or research to the profession.*

I have read and understood the above and consent to information, medical imaging and photographs being used for the secondary purpose of audit and research by Dr Goolam, his providers and associates. I also consent to medical records and medical imaging being destroyed after seven years if I am no longer being treated by Dr Goolam.

Consultation fees are expected to be paid in full at the time of your appointment. These fees are above the Medicare Benefits Schedule (MBS) fee. You will be able to claim the MBS benefit from Medicare with the receipt issued if you have a valid GP/Specialist referral.

I agree to take responsibility for the complete and timely payment of all my accounts.
